Standalone Pozyx Tester

- https://www.npmjs.com/package/python-shell
  - Does it work on RPi? Don't know.
- https://www.electronjs.org/
  - Ease of use
- https://blog.marekkraus.sk/linux/how-to-make-electron-run-on-raspberry-pi/
  - just for security. maybe there is something special about runnig+deploying on pi
- https://kivy.org/#home
  - Backup
  - Would have to get used to it
- Goal: https://docs.pozyx.io/creator/latest/python
  - Basically implementing all of these with a nice UI
