

Cloud Data Processing with NIG

1. NIG Stack

2. NodeRed

3. InfluxDB

4. Grafana

Recording

Additional Links

The NIG stack was previously mentioned here:

- [Introduction to IoT - Sensors and Data processing](#)
- [First steps with your NIG](#)

Unfortunately, these guides are **not** up to date anymore, as they use an older version of the InfluxDB. Since Version 2 of that database, some details in the process have changed a bit and there is slightly more work to it now.
