

# How to Connect to Tardis Workstation

## Pre-checks

- Check if Tardis is online; Go to EOLab Discord server and make sure you see TardisBot online. In case Tardis is offline please report it in the Discord channel called support under the Systems and Services category.

- Get the IP address of Tardis; To do that send a message by Discord saying !ip. Don't forget the exclamation mark, otherwise Tardis won't understand.

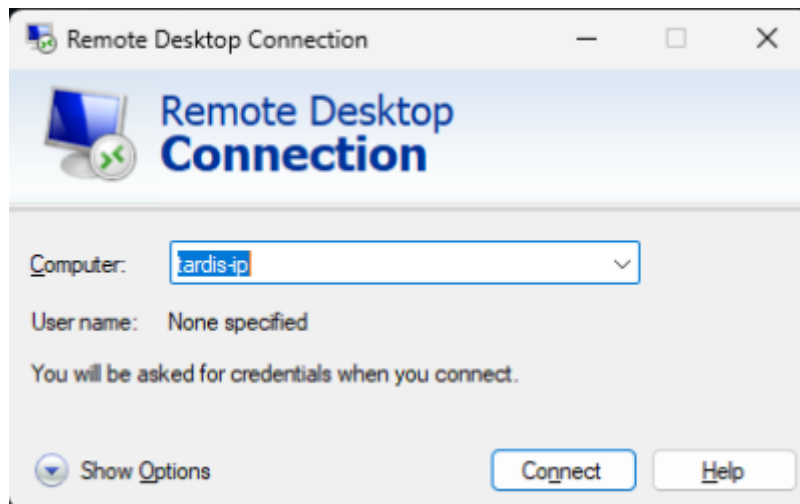

- Connect to our VPN. If you don't know how to do it check the tutorial [How to Connect to Our VPN](#)

## For use over SSH (terminal)

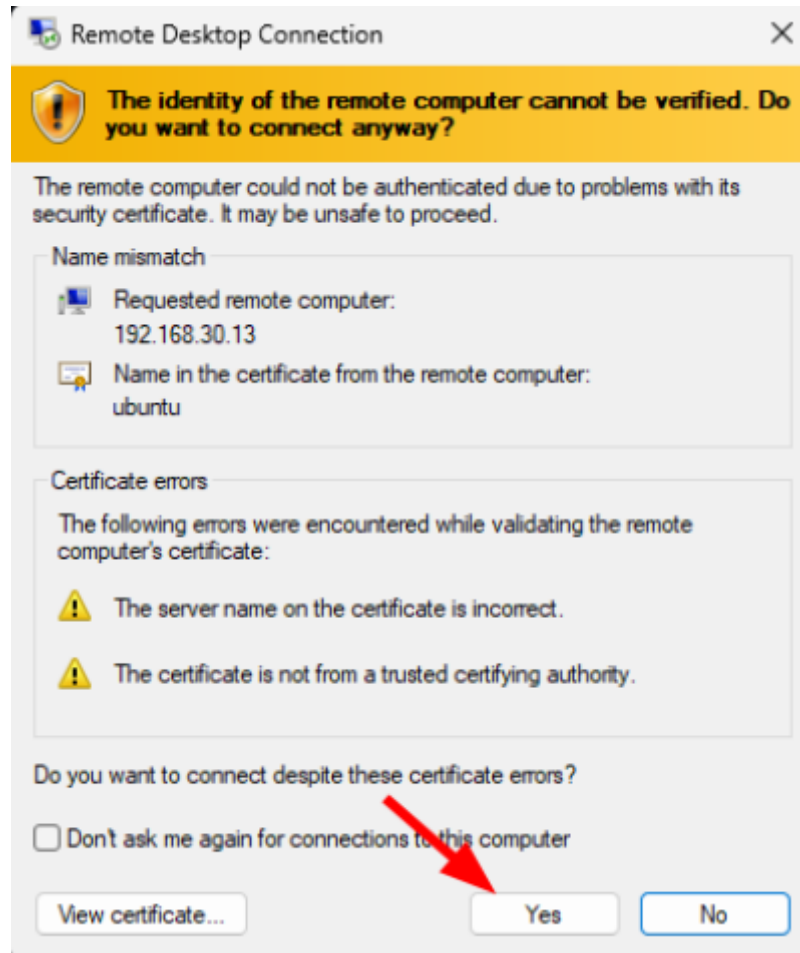

```
ssh your-username@tardis-ip
```

## For use over Remote Desktop (desktop UI)

- First download your favorite RDP Client. If you are on Windows you already have one called Remote Desktop Connection, if you are on Linux or MacOS you can use [FreeRDP](#)
- Open your RDP client and type the Tardis IP address

- Press "Yes"

- Enter your credentials

Login to cruncher-X670E-AORUS-MASTER

Session

username

password

- You are set :D
